10Mbps Uncapped/ Unshaped ADSL subscription	R 4 999.00
<b>Subject to Terms and Conditions:</b>	
- A setup fee from R900 (dependent on distance) is applicable on Cisco and Billion routers supplies by us.	
- A 3G Failover offering (using a Billion router) is available as an option with all Business ADSL services. This allows a company to remain connected to the internet should the primary connection go down, by seamlessly failing over to the 3G connection and back to the primary connection once it has been restored. 3G Failover packages exclude data bundle costs.	
<b>Additional value adds include:</b>	
- 5 Fixed IP addresses, enabling you to host servers and deploy a VPN connection (Cisco/ Billion router required).	
- A low contention ratio (limited number of users on the line at any one time).	
- Use of a Business class Cisco/Billion router , for new customers signing a 12-month contract.	
- Unshaped bandwidth (no prioritisation of certain types of traffic).	
- Notification of downtime.	
- Other value-added features include a 2Gbyte mailbox and 300WiFi minutes.	

## Standard Terms & Conditions

\* **All Prices include VAT.**

\* All products are compatible with Vodacom 3G and MTN Edge.

\* Set-Up Fees covers the cost of applicable Configuration of Services Only, usage is proportional for the current billing cycle.

\* Initial Fees cover the cost of applicable Configuration and Usage for the current billing cycle.

\* When the user exceeds the 'subscribed to' data capacity on ADSL, the international connection will be fully restricted, while the local connection is allocated to a bandwidth segment shared by all excess users. The account will subsequently be suspended at a threshold of 30 G.

\* When the user exceeds the 'subscribed to' data transfer on Internet Services, the additional usage will be billed accordingly.

\* E-Mail Accounts on Shared Domains subject to availability of the username on selected Shared Domain.

\* All E-Mail Services include:

- o Frequently Updated Anti-Virus
- o Anti-Spam
- o Globally accessible Web Mail interface accessed via any compatible web browser.
- o Internationally based Back-Up Mail Service

\* Sub-Domains for Hosting on Shared Domains subject to availability thereof on the selected Shared Domain.

\* Please note that all products and services are subject to Terms and Conditions and our Acceptable Use Policy (AUP). No services

\* All payments strictly one month in advance by debit order. Initial Payments or Setup Fees may be collected with the first debit

\* Errors & Omissions Excluded.
